

## Chess Boxin'

Deez Nuts

Take a look around few left who still are what they claim to be  
,  
Shit we're the last of a dying breed.  
Love it or hate it, what you see is what you get over here.  
That's the truth and that's all you'll get from me.

Real recognise real  
You lookin' real unfamiliar.  
But I recognise exactly what I'm fuckin' looking at  
Every mornin' when I see that man in the mirror.

Don't you see this shits chess not checkers?  
Y'all just pawns to the kings.

You can count the ones you trust without using both hands  
Cause you took the short cut, not the high road fam.  
You should've fucked with the gods, but got in bed with the devil,  
You made your bed and in the end you'll get fucked in it.

Real recognise real  
You lookin' real unfamiliar.  
But I recognise exactly what I'm fuckin' looking at  
Every mornin' when I see that man in the mirror.

Don't you see this shits chess not checkers?  
Y'all just pawns to the kings.
