

The Weak Have Taken The Earth

Deinonychus

falling down • no one there to catch you • voices in my head I
hear • stay to oppress • now I come into your life • swallow me
deep inside • silence the old • i'm feeding your pain • instead
of going away • i took bloodlust with me • you were given to
me • you were my last resort • i weaken your body and infest your
mind • i was told to heal • you can't change what i am • the
evil in your head forever to enslave • many died by my hand •
you made me do this • a vicious circle • trapped inside my head
• my heart is bleeding my soul scourged • the sound • ear deafening
• as I fall to the ground • finally i leave • death take
my hand
