

Power

Deitrick Haddon

Say you wanna be a star, you wanna rock hard
So you wanna be fly like me
Say you wanna go far, don't like where you are
So you wanna have the victory

Don't look at my whip and look at my crib
And start thinkin' this life's easy
Had to walk by faith, had to struggle everyday
Just to get to the point you see

This life I'm livin' is a battlefield
And when it comes against me, I got my shield
Don't get it twisted, the enemy's real
And they don't wanna see us win

There's someone greater livin' within
That is fighting this battle for me
Can't worry about the enemy, Holy Ghost in me
Is givin' me one need and that's power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power

So you need a new car, gotta have a new job
You need to go down on your knees
You need to seek His face, take a break from the race
Make Him the priority

Don't look at the way that the Lord has blessed me
And start thinkin' that I gotta fall free
Had to walk by faith, had to struggle everyday
Just to get to the point you see

This life I'm livin' is a battlefield
And when it comes against me, I got my shield
Don't get it twisted, the enemy's real
And they don't wanna see us win

There's someone greater livin' within
That is fighting this battle for me
Can't worry about the enemy, Holy Ghost in me
Is givin' me one need and that's power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power

Holy Ghost movin' all up and down your spine
Working miracles, givin' sight to the blind
Can't you feel the glory, I feel it all on me
I gonna make the winning shout like Kobe

Hands up in the air, everywhere
Can't you feel this presence in the atmosphere
And if you're not ashamed, if you're not a coward
Stand up if you got that power

Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
Stand up if you've got that Holy Ghost's power
