

Where You Are

Deitrick Haddon

Glad you could make it
Now that I got you here
I gotta tell you how I feel
Yup
C'mon

You already know my feelings
Do I have to tell you again
And I ain't going nowhere
I need to you to know they can

Call my name whenever you need me
I'll be there if you just believe in me
Wanna be your bread when your hungry
Wanna be your water when your thirsty
A shoulder you can cry on
I'll never leave you alone

I wanna be I I wanna be right there where you are
I wanna I I wanna be right there right there right there.
Trust in me and I will be
I wanna be right there where you are
I wanna I I wanna be right there right there right there.

I been watching you go in circles.
And I been patiently waiting here.
And loving you through it all
But I don't think you hear my clear

Call my name whenever you need me
I'll be there if you just believe in me
Wanna be your bread when your hungry
Wanna be your water when your thirsty
A shoulder you can cry on
I'll never leave you alone

I wanna be I I wanna be right there where you are
I wanna I I wanna be right there right there right there.
Trust in me and I will be
I wanna be right there where you are
I wanna I I wanna be right there right there right there.
