Victims

Deivos

Always a victim, always persecuted
Wherever you go, nothing is right
Everything they do, has to be forbidden
You're all but sinners, please respect us!
Detractor of reality, usurper of true values
Self-styled crusader, in search for heretics
Just a f*cking bigot and a holy despot
Always plays the victim, when being oppressor

Leave this book, on your knees, pray to god Make him pleased
Always a victim, always persecuted
Wherever you go, nothing is right
Everything they do, must be forbidden
You're all but sinners, please respect us!

Leave your life behind, your goals are but sins On your knees, its us you must pleased
