Dej Loaf

Niggas be pillow talkin', they speakin' on me, yeah
Playin' with my name, thinkin' shit sweet, yeah
I ain't worried about a thing, I know where they be, yeah
If they [?] nigga try my family tree
I seen the signs and the messages (Yeah)
Too busy with my medicine
I gotta keep the lights on, Tom Edison
I think it's time I represent

It's a set up (Set up)
It's a stick up (Stick up)
Any smoke, he can't fuck with my live
Light fifty (Fifty)
Swipe quickly (Quickly)
Told niggas bury themselves, they ain't dyin' with me
Couple people that I love, wish I can trust more
Momma know her baby deserve much more
I'ma make you proud, know you lookin' down on me
[?] these signs, when they ain't right for me

Gonna put some real niggas on (On, woah, woah, yeah, yeah)
Put some real niggas on
Oh, oh, oh, oh, woah
Melodies like bomb
They can't take me off my throne
Why they go and did that?
I'm startin' to think all these niggas, they was with that
Put that on your head, ain't no prices on me, yeah
You better get your money back, you put some prices on me
Put a briefcase on your head, lock it with a key
Hmm, you wanna ball up, I'm way out your league
I get love, way overseas
So much weight on my back like I'm Hercules
How you say you got my back then just up and leave
I tried to hit you on the text, I ain't get no ring
