

I Had A Real Good Time

Delbert McClinton

Well, I love this life but it's doing me in
Just in case I don't ever see you again
I had a real good time, I love the wine
The women and song and the carryin' on
I had a real good time

I been around the block a time or two
'Round every corner there's somethin' new
I had a real good time, I just love the wine
I love the women and song and the carryin' on
I had a real good time

There's a big ol' world of opportunity
For a man that sings the blues
You learn a whole lot more about life
From the things you're not supposed to do

I got a way with women keeps 'em coming around
That's the kind of thing you don't turn down
I had a real good time, I love the wine
The women and song and the carryin' on
I had a real good time
