

Willie

Delbert McClinton

Willie finally found him a woman
She's nothin' at all like him
She's over the top
And she just won't stop
And she keeps on rubbin' it in

He's been doin' without for a long time
Turned down time and again
Yeah, Willie finally found him a woman
And she's getting' the best of him

Man, you should have seen the sparks fly
The way it all began
He ran a red light ahead of Willie's truck
And banged up a whole rear end

Well, there hadn't been an inch between 'em
Sittin' damn near [?]
Willie finally found him a woman
And she's getting' the best of him

All I can say, it's about damn time
He's about to drive us all out of my mind
Ev'rybody needs a little lovin' every now and then
Willie finally found him a woman
And she's getting' the best of him

He follows her 'round like a puppy
Getting' out of every door
He does have a saying that she want to do
Even does have the little bit [?]

If you ask him how it's hangin'
He says it's better than it's ever been
Willie finally found him a woman
And she's getting' the best of him
Yeah, Willie finally found him a woman
And she's getting' the best of him
