

Hammer

Delerium

When I saw you, you were almost gone
Then I felt that there was something wrong
And I miss you miss you in my arms
How did I lose you in my arms

Sad Eyes you got songs
And they hit me like a hammer hammer
The whole time I thought you
Were just a wilted little flower flower

And you dance like you were always free
How could I ever not blame me
Push things away since I was nine
Now you've knocked me into line

And I'm sliding down a slippery slope
Swing me over your last rope

Sad Eyes you got songs
And they hit me like a hammer hammer
The whole time I thought you
Were just a wilted little flower flower

Sad Eyes you got soul
And it hits me like a hammer hammer
The whole time I thought I
Was the one with the power power

Sad Eyes you got songs
And they hit me like a hammer hammer
The whole time I thought you
Were just a wilted little flower flower

Sad Eyes you got soul
And it hits me like a stammer stammer
The whole time I thought I
Was the one with the power power
