

Changes

Delphic

Changes, and the danger of
Those phases and the love you lost
Changes, and the danger of
Those phases and the love you lost

Alright, lay it on the rain
Lay the rain on, lay it on, on, lay it on, on, on
Hold tight, this spin feels the same
See me right through, see me right through, see me right through this

Funny how I clip the sun, then I love you more
Never, never, never, never, oh, no
Funny how it all worked out for the lucky ones
I was never want to take it, those changes
In my stride

Changes, and the danger of
Those phases and the love you lost
Changes, and the danger of
Those phases and the love you lost

Alright, I can't complain
Lay the rain on, lay it on, on, lay it on, on, on
It's like someone break the switch
Got a message out, seem to be sound, seem to be found out

Funny how I clip the sun, yeah I love you more
Never, never, never, never, oh, no
Funny how it all worked out for the lucky ones
I was never want to take it, those changes
Just take it, those changes
In my stride

This time, I might, just turn, turn, turn
My back, my back to the water
My back, my back to the water
This time, (just take it) I might, just turn, turn, turn
(Just take it) my back, my back to the water
(Those changes) my back, my back to the water
(Just take it, in my stride)

Changes, and the danger of
Those phases and the love you lost
