Delphic

We, you and me what is said  
Wasn't never meant to hurt  
Real stories always come off worse  
Can we make the time to leave it behind  
And reshape, remake our faith in what we see?

How you feel so unsteady?  
I'm already out of reach  
Remember finding your feet

In a fine time, take the time to find me  
I'll be ready waiting let's do something real  
Lets do something real

We, you and me what is said  
Wasn't ever meant to hurt  
Real stories always come off worse  
Can we make the time to leave it behind  
And reshape, remake our faith in what we see?

How you feel so unsteady?  
I'm already out of reach  
Remember finding your feet

In a fine time, take time to find me  
I'll be ready waiting let's do something real

Let's do something real  
Let's do something real  
Let's do something real

Real something, real something  
Real something, real something  
Real something, real something  
Real something

Let's do something  
Real something  
Real something  
Real something

Let's do something  
Real something  
Real something

Let's do something real

We, you and me what is said  
Wasn't never meant to hurt  
Real stories always come off worse  
Can we make the time to leave it behind  
And reshape, remake our faith in what we see?

How you feel so unsteady?
