

# Here I Am

Delta Goodrem

I saw the sun for the first time today  
It's been so long I thought you'd gone away  
And now I feel as though I've been here before  
Once again my friend  
I'll see you til the end

Here I am this is me  
What you get is what you see  
Look around I am free  
And there are no fears in me  
Here I am

At times the world it seems too scary so  
I don't know where I'm heading  
And I don't know where I'll go  
I know it's not as bad as it seems to me  
Once again my friend  
I'll see you 'til the end

Here I am this is me  
What you get is what you see  
Look around I am free  
And there are no fears in me  
Here I am

Floating by the stars I picture them and us  
It's not that hard to see  
Our comets are colliding  
Imagine you were flying  
Imagine that you're here with me

Floating by the stars I picture them and us  
It's not that hard to see  
Cause our comets are colliding  
Imagine that you're flying  
Here with me

I saw the sun for the first time today  
It's been so long, I thought you'd gone away  
And now I feel as though I've been here before  
Once again my friend  
I'll see you 'til the end

Here I am this is me  
What you get is what you see  
Look around I am free  
And there are no fears in me.

Here I am this is me  
What you get is what you see  
Look around I am free  
And there are no fears in me.

Here I am this is me  
What you get is what you see (this is me)  
Look around (oh baby) I am free (oh baby)  
And there are no fears in me (and this is me)
