

Take Me There

Delta Rae

You get to me
I can't help it
But don't tease me, baby
Come on give me shelter
Cause I want to know
From the inside
Where you're coming from
Where your feelings hide

Baby, when you call my name
It's like a warning
There's danger in the things you say
But I think I want it
Every single move we make
Feels like a chance to win
So come on, baby, take me there

Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
I'm all yours
Just show me you want me

Cause I want you
And I want what's next
But I need respect
Do I have to spell it
So move with me
A little give and take
You better make some time
Worship at my altar, baby

When you call my name
It's like a warning
There's danger in the things you say
But I think I want it
Every single move we make
Feels like a chance to win
So come on, baby, take me there

Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
I'm all yours
Just show me you want me
I'm all yours
Just show me you want me

I said, I'm all yours
I'm all yours

Come a little bit closer, baby
Your skin on my skin
I want to know you from the inside
So come on, baby, take me there

Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
I'm all yours
Just show me you want me
Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
Hold me like you want me
Come on, baby, take me there
I'm all yours
Just show me you want me
I'm all yours
Just show me you want me
I'm all yours
Just show me you love me
