

Hey there! It's been a long time  
Whati up ? Whati up ?  
Whati up ? Whati up ?  
Whati up ? Whati up ?  
Watch me

When I'm cruising in the west indies  
Your posh boyfriend's got nothing on me  
Balls-deep tripping in the turquoise sea  
Your dipshit hen's dying with envy, oh!

At least her death she kinda chose  
Buried in her favorite clothes  
Freeze it for me, strike a pose  
You get away with it...

Easy, yeah yeah yeah  
It's easy, yeah yeah yeah  
Yeah yeah yeah yeah  
Yeah yeah yeah yeah

In the land of a million foes  
Snakes disguise as your garden hoes  
With that cuty chubby red neck glow  
Really by now you should know, oh!

Break it to me violently  
Fuel the fire jealousy  
Hate comes with the pedigree  
I get away with it...

Easy, yeah yeah yeah  
It's easy, yeah yeah yeah  
Yeah yeah yeah yeah  
Yeah yeah yeah yeah

Ahh

Yeah yeah yeah, it's easy  
Yeah yeah yeah  
Yeah yeah yeah yeah  
Yeah yeah yeah yeah
