

# Egoraphobia

Deluxe

My demons only captured the half of me  
But half was enough to cause catastrophe  
These limbs respond in duality  
Reflecting the solar bipolarity  
I figured best to test my luck  
It's either get it out or let my head combust  
I strap on my cape and loudly pound the drum  
It's time to saddle up and gallop 'round the sun

I'm so proud high on my horse  
Intergalactic galloping, catch my fall  
Proud high on my horse, high on my horse, high on my horse  
Proud high on my horse  
Intergalactic galloping, T' T' TAH!  
Proud high on my horse, high on my horse, high on my horse

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all, not at all

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all

Cold shiver now exposes the fallacy  
I'm out here all alone in this galaxy  
These limbs respond in duality  
Reflecting the solar bipolarity  
I miss the ground beneath my feet  
I see the plunge is deep after you reach the peak  
I deflate my cape and hit the lawn and run  
A cow-girl punk from beyond the sun

I'm so proud high on my horse  
Intergalactic galloping, catch my fall  
Proud high on my horse, high on my horse, high on my horse  
Proud high on my horse  
Intergalactic galloping, T' T' TAH!  
Proud high on my horse, high on my horse, high on my horse

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all, not at all

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all

I'm so proud high on my horse  
Intergalactic galloping, catch my fall  
Proud high on my horse, high on my horse, high on my horse  
Proud high on my horse  
Intergalactic galloping, T' T' TAH!

Proud high on my horse, high on my horse, high on my horse

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all, not at all

Doing it, doing it  
Kind of wrong, kind of wrong  
Is better this, better that  
Not at all  
(Boom!)
