

Getting upset ain't gonna make it better
Sleeping for days might not be the answer
Some kids are born in cabbage, some in silver
I spoon a dude who came out wearing a sweater
Seasons change, young hearts overflow
Trick is to fool the beast in laughing falsetto

Only way we know we go
Only way we know we go
So we go

Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward

Sometimes they find all that truly matters
Though most times it feels like we may never recover
In cold light of day the construction shatters
But who needs keys in a landscape of lovers
Tongue goes places but the brain don't follow
Moonlit faces singing high/low, high/low

Only way we know we go
Only way we know we go
So we go

Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward

Only way we know we go
So we go

Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward
We go, we go
Forward, forward
