

# Get Down

Deluxe

You know that I be getting down  
Hmm, you know it, you know it  
You know it, heh

Fake-out the bed in doom  
The apocalypse in bloom  
Everything goes as long as nothing is sacred  
Under pink overall  
They are the dreaded gyal  
Buzz in my coat  
And now you're lifting a rocket  
And then the diabetics  
And only false athletics  
The facts don't matter  
How sore you smoke him  
Click only happy thoughts  
Freak going off the charts

'Cause I came to get down  
I came to get down  
To break my knees  
Do as I please  
Yeah I came to get down  
I came to get down  
To break my knees  
Do as I please  
Yeah I came to get down  
Get down  
Get down  
Get down  
Get down  
I came, I came, I came  
To get down  
Get down  
Get down  
Get down  
Get down  
I came, I came, I came to

I pay my telephone  
Much prefer dying alone  
Out came this genius  
On my front door, knocking  
Feel like an underground  
Emerging safe and sound  
From the sea like a sun  
I don't go, stop it  
Took all your cellphone  
And pay my father's own  
Out came this genius through the backdoor, sneak in  
Click only happy thoughts  
Sleep falling off the charts

'Cause I came to get down  
I came to get down  
To break my knees  
Do as I please

Yeah I came to get down  
I came to get down  
To break my knees  
Do as I please  
Yeah I came to get down  
Get down  
Get down  
Get down  
Get down  
I came, I came, I came  
To get down  
Get down  
Get down  
Get down  
Get down  
I came, I came, I came to

Lucky I'm so sloppy though  
Jack's stuck on the piano  
Let me be your mummy, come on  
Steady flow, this mess though  
Never shade out the moustache yo'  
Let it grow baby come on (come on)  
Daddy trolls, this old moves  
Part of his song he never wrote  
Finish it, let me see, come on (come on)  
Lucky I'm so lucky so, bar ready, so (ha)

'Cause I came to get down  
I came to get down  
To break my knees  
Do as I please  
Yeah I came to get down  
I came to get down  
To break my knees  
Do as I please  
Yeah I came to get down  
Get down  
Get down  
Get down  
Get down  
I came, I came, I came  
To get down  
Get down  
Get down  
Get down  
Get down  
I came to get down  
Down, down, down  
I came to get, came to get down  
Down, down, down  
I came to get, came to get down  
Down, down, down  
I came to get, came to get down  
Down, down, down  
I came to get

I came to get  
I came to get  
I came to get  
I came to get down, down, down, down  
I came to get, came to get  
Down, down, down

I came to get, came to get  
Down, down, down  
I came to get...
