

# Do It Again

Demarco

Woke up, this morning  
A little bit after 10  
My life's complicated  
Cause she was really my friend  
Even though we're both wrong yeah  
I wish we could do it again  
Yeah  
I wish we could do it again

Woke up with a smile on my face  
Last night was a hell of a night  
We made memories I'll never erase  
Can't forget the love that we made  
The two are with they a tear down the place  
But you were my friend  
Still there's nothing I wanna change  
We crossed the line can't come back again  
And even though I don't want our friendship to end  
Last night keep playing on my mind like over and over again

Woke up, this morning  
A little bit after 10  
My life's complicated  
Cause she was really my friend  
Even though we're both wrong yeah  
I wish we could do it again  
Yeah  
I wish we could do it again

What am I to do now  
Cause I can't stop thinking about you now  
None of mi phone calls a go through now  
Leaving me so blue now  
Girl I'm missing you now  
I know you have feelings for me girl it was everything  
We didn't plan it but the loving was magnificent  
Girl you are heaven sent  
But you were my friend  
It keep playing on my mind like over and over again

Woke up, this morning  
A little bit after 10

I wish we could do it again  
I wish we could do it again  
I wish we could do it again

Shaggy  
Well know I'm needing your energy  
Girl a where you gone  
Right now I would give anything fi hold ya ina mi arms  
Your touch is like a medicine one dose it keep me calm

All your move is like a melody your body a perform  
Tell me  
What will it take to make you say  
I'm coming back over now to stay  
Don't want this friendship to end  
But I be dreaming of a future with you in it  
As your lover girl and I'm your man

Woke up, this morning
