Who's That Boy?

Demi Lovato

I wanna get you by yourself Yeah, have you to myself I don't need nobody else Don't want nobody else

Your special, I know Your smile, it glows He's perfect it shows Let's go!

I've been starin' at ya And I could do it all night Your lookin like an angel With a kinda body needs a spotlight

Aint nobody know your name But lookin like you do could be famous I can see us makin waves From the back of the club to a bed in the shade

Now don't know who you are But you look like a star And everybody here be thinkin Who's that boy

Wanna take you home And get you all alone And everybody here is thinkin Who's that boy

Oh He got me No I never see No one like him Damn he's everything

Girls they want him Guys they wanna be Who's that boy Who's that boy

You could say that I'm distracted But ah you got me so attracted But boy I tell you what the fact is Is no one else in this room that can rock it like you you do

Aint nobody know your name But lookin like you do could be famous I can see us makin waves From the back of the club to a bed in the shade

Don't know who you are But you look like a star And everybody here be thinkin Who's that boy

Wanna take you home And get you all alone
