## **My Blood Your Blood**

Follow my way of thinking True human way of life Lay yourself on my seed Depart from your kind

I am your father I am your son The start and the end In time you'll see

Heal yourself from yourself Act without emotion I am the upward direction Your insuperable fate

You thought life is a gift Let truth speak for itself The course for you is settled You are now on my leash

Dreaming of this dominance Ruined by your impotence See the reverse side of life Come and hide your excuses

You thought life is a gift Let truth speak for itself The course for you is settled You are now on my leash

I am your father I am your son The start and the end In time you'll see Demigod
