

No Man Is An Island

Dennis Brown

No man is an island
No man stands alone
Each man has a brother
And remember
Each mans dream has a road
Now we need one another ooh yes
And we all try to be friends
Each man has a brother
And a each man has a friend
You can live in this world all by yourself
No nonoooo you can't make it alone
And just as sure as you try to make it by yourself
You gonna wake up and find you gonna need somebody else
No man is an island
No man stands alone
Each man has a brother
And a each man has a friend
You can live in this world all by yourself
No nonoooo you can't make it alone
And just as sure as you try to make it by yourself
You gonna wake up and find you gonna need somebody else
No man is an island
No man stands alone
Each man has a brother
And remember
Each man's dream has a road
Yeahh ooh no noo
No man is an island
No man stands alone ooh now
Ooh no noo yeahh
