

# Goodbye Lullaby

Derek Minor

(Ay ay ay)  
Gun shots in the night (oh oh oh)  
Sing a lullaby  
Sing a lullaby (ay ay ay)  
When I close my eyes (oh oh oh)  
I just wanna say goodbye, wanna say goodbye (ay ay ay)  
Gun shots in the night (oh oh oh)  
Sing a lullaby  
Sing a lullaby (ay ay ay)  
When I close my eyes (oh oh oh)  
I just wanna say goodbye

Everyone tellin' me I need to calm down  
I've been goin' crazy, feelin' like I'm losin' it  
Though I got it all now, the Devil he been waitin'  
I've been on his menu, guess I'm finally in his claws now  
Trying to avoid the fall now, steal my innocence  
I need to repent, I am not perfect  
You should now that by now  
I've been medicatin' everything away  
I'm just trying not to ever feel the pain  
I already know that it's wrong  
Quit talkin' to me, leave me 'lone  
I member some people that say they the light  
They be the ones that bout to make me hard as darkness

Skeletons all in my closet, skeletons turn into monster  
If there is a God and you're right here and you're listening  
I'm tired of it all, oh I'm tired of it all  
Cause I see death in my nightmares  
In my nightmares, in my nightmares  
In my nightmares, in my nightmares

I got voices in my head that always come and talk to me  
And my fear is Freddy Kruger cause they stalk me in my dreams  
I see slave ship, guns, clips, gang colors, prison cells, dope fiends  
Jim Crow, Jim Beam, pills, lean, no justice, no peace  
Felonies and misdemeanors  
Wondering if we curse  
Can I get my degree first?  
'Fore they murder me, no degree first  
It's America we get the green first  
You feed the poor but its greed first  
Livin' water but I die of thirst

If there is a God and you're right here and you're listening  
I'm tired of it all, oh I'm tired of it all  
Cause I see death in my nightmares  
In my nightmares, in my nightmares  
In my nightmares, in my nightmares

But just when I was drowning  
Surrounded by a sea of my own darkness  
Then light broke through  
And just as I was swallowed by my own fears  
Then light broke through  
Now all I see is you, you, you

God all I see is you, you, you  
All I see is you, you, you  
All I see is you, you, you, you
