

Nothing but Love

Derek Webb

We fell in love
And found a place downtown
It was our love
That held us to the ground
But the wind was bound to blow
At least one of us should've known that sound
And the things we should have said
Became the road that led me out

So I've got nothing but love
Nothing but love for you now
I've got nothing but love
Nothing but love for you now

So when you take a mistress on the side
Just to keep the marriage alive
You know it never works
Especially the harder you try
It just reveals a thirst
For the one thing you just can't find

So I've got nothing but love
Nothing but love for you now
I've got nothing but love
Nothing but love for you now

So we said what we needed to say
Agreed it should not be this way
It isn't you, it's me
Indefensibly I say
In so many ways the same
But not enough for me to stay

So I've got nothing but love
Nothing but love for you now
I've got nothing but love
Nothing but love for you now
I've got nothing but love
Nothing but love for you now
I've got nothing but love
Nothing but love for you now
