

# The Oath Of An Iron Ritual

Desaster

Insane Dogs, eliminators of the light  
Mentors of perdition, children born of fire  
Is it victory on horizon  
The new dawn has taken place

Oath Of Iron Ritual

Black poison infiltration  
The cult invades the soul

Pleasures of devastation  
Fine, sweet, pure

The night sky will guide us  
To the holyness of death  
The fires that lead us  
The teacher to all

The Oath of an Iron Ritual  
The Oath of an Iron Ritual

Hellish interventions  
The power you earn  
An abyss to reign  
Kingdoms will fall

Insane Dogs, eliminators of the light  
Mentors of perdition, children born of fire  
Victory is ours  
And hell has taken place
