

# Doghouse

## Descendents

In the world of man in the great rat race  
Makes his speeches  
Then he does what he please  
Winners of the mosh impart their grace  
As I wallow in the mush in a doggy daze

I live in a kennel smells like rotten cheese  
Chums lots of flies but why should I mind  
Then I get trashed by the ho thats my wife  
Can't get enough of kickin my hiney

Life in the canine world  
Cats to chase and a bone to bury  
Full of doggy stench in this poo poo place  
If I get a piece of tail  
I don't want to get married

This is just a doghouse why should I stay  
If these folks are crazy  
They try to tell me  
That they know where it's at  
I don't know maybe I'm lazy

This is my doghouse, you said I'm a dog  
I live like a dog this is my dog house

So now its time to go work for the man  
I work for the man at the taco stand  
I keep on grinding like a dog always does  
No place to hide for this American dog

This is my doghouse, you said I'm a dog  
I live like a dog this is my doghouse

When I frickin find what I'm lookin for

I dig right in and take my place

Maybe I seem crass and crude

But a dog's got to do what a dog got to do

This is my doghouse, you said I'm a dog  
I live like a dog this is my doghouse

I'm just a dog, I eat cat feces, feel like a  
Hydrant on this doggy street  
Live in the doghouse, everybody hates me  
I want to get laid, but everybody takes me  
I'm your dog and you're bitches
