

Tell me

Destination Anywhere

Just like I said you are back
I've been trying to forget
What we had what we said
How you kicked me in the back
And I cried I denied
You were slipping out of sight
Endless fights sleepless nights
And I couldn't get me right

And it's okay it's what I learn
What I do is what I earn
Now you tell me you are lonely
And you want me to return
It's okay it's what I learn
What I do is what I earn
And what I do is what I earn

So tell me did we have our time
And will we have a second try
So tell me when it's time to fight
I know we'll have a second try

It's hard to breathe and I can't see
What's the best for you and me
I want to make your world right
Oh can you see the sunlight

And it's okay it's what I learn
What I do is what I earn
Now you tell me you are lonely
And you want me to return
It's okay it's what I learn
What I do is what I earn
And what I do is what I earn

So tell me did we have our time
And will we have a second try
So tell me when it's time to fight
I know we'll have a second try
