

# You make me drown

Destination Anywhere

It seems so hard to find  
A reason why you never  
Call me back at night  
Will this last forever  
All the lines addressed to you  
I'll never send them  
All emotions that appear  
I will hold them

No more shelter from the rain  
Give me lies or give me pain  
Come on break me make me fall  
Give me anything at all  
Give me trouble give a sign  
Just remember me sometime  
I give away you don't give back  
Your ignorance make me

Refresh all the memories  
Repeat the melodies  
Break up all the scars  
You're here but so far  
Remember the details  
As if they were great tales  
You make me drown  
You make me drown

All I need is just one call  
Is it worth it after all  
I throw the pics of you away  
Waiting for a better day  
But there's a smell or just a sign  
Memories are back in line  
I want to leave I want to quit  
But it come back to me I

Refresh all the memories  
Repeat the melodies  
Break up all the scars  
You're here but so far  
Remember the details  
As if they were great tales  
You make me drown  
You make me drown

Refresh all the memories  
Repeat the melodies  
Break up all the scars  
You're here but so far  
Remember the details  
As if they were great tales  
You make me drown  
You make me drown
