Let's get lost, all right, all right
You know a place where we can go
Ask your money, get your money on a stool
Let's get lost, all right, all right
Let's get out and hold me some more
It's crazy, it's crazy, it's crazy, it's crazy, crazy
In my own words
See you dancin' in your own damn rain
Take it in and take it back again
Looking novel when your fashion's old
It's kinda early but the story's told
