

The Real Sugar

dEUS

Tonight
If only tonight
I need something stronger, baby
Tonight

Like the moon and the stars
I don't know what you are
I can't wait any longer
Tonight

Only love is the real sugar
Only love is the real...

Everybody's ever felt lonely snap your finger
Everybody's ever felt lonely...

They say
There is a way
If you believe in something good
It could happen today
And baby
I'm trying hard to sound vague
But can I just hold you in my arms
Promise you we'll never
Talk about the promise again

Only love is the real sugar
Only love is the real...

Tonight
If only tonight
I need something stronger, baby
Can you provide?

Like the moon and the stars
I don't know what you are
I can't wait any longer
Tonight

Cause only love is the real sugar
Only love is the real....

Everybody's ever felt lonely snap your fingers
Everybody's ever felt lonely...
