

I Broke Up

Devics

When I was young I dreamt of days
When I'd be old and far away
I never knew those family fights
Would be replaced by lonely nights

Lonely nights my lonely nights
I live in them in my blue light
I dream of days when I'll have you
I wonder if you're lonely too

Out of bed she paints for hours
This girl has had to see the bad
She knows the value of a heart
Still she breaks fall apart

Fall apart I fall apart
Right out of sleep and into dark
And in the dark a dim lit star
That shines right over where you are

Lonely nights my lonely nights
I live in them in my blue lights
I dream of days when I'll have you
I wonder if you're lonely too

When you walk these lonely streets
If I'm not there think of me
