

# Don't Be Afraid

Devin the Dude

It's a brand new game  
It's not the same as yesterday

But just continue to play  
Don't be afraid to make mistakes

You know they gonna talk down  
They gonna hate

Who gives a fuck what they got to say?

With time comes change  
Change with the times

Some learn to adapt  
Some get left behind

Let's not rewind  
Best hurry and move forward  
Don't trip and turn around  
Be worried 'bout who saw it

Just keep straight ahead  
Get your cream, your cake, your bread  
Make sure that them babies fed  
Remember how you make your bed  
Is how you gonna lay in there

Wanna ride? Pay your fare  
All aboard, come on 'fore you know it you'll be waiting there

Ticketless  
Train rolling it stops for no one  
Maintain, keep things golden  
And have your fun

Make sure you T.C.O.B  
Let no one control your mind  
And save a little, just in case you go to overtime

It's a brand new game  
It's not the same as yesterday

But just continue to play  
Don't be afraid to make mistakes

You know they gonna talk down  
They gonna hate

Who gives a fuck what they got to say?

Remember, livin' is a privilege  
Be patient with the children cause it takes a whole village

And you're never too old to do something new  
Don't you remember the goals you put in front of you?

You don't do something with your time  
Somebody else will

Have you chillin' with liquor, and powder, and x pills  
Gotta stop it, if there's no profit or progress

Not watching what you consume and digest  
Time to transform, remodel, renew  
You can change for the better and still be you

Gotta learn to adjust to the condition  
Oh yeah... and stop bullshittin'
