As I open my eyes to see you all dressed in white Thank god he gave me you
Then you walk down the isle, take my hand and smile I know you feel it too
I can't wait one more day to start my life with you

Here and now, forever
I promise you, cause you're the one
Here and now, together
For you, for you
I do, I do

As I open my eyes and try not to cry
I open up my heart
I dreamed of this day and what I would say
My home is where you are
I can't wait one more day to start my life with you

Here and now, forever
I promise you, cause you're the one
Here and now, together
For you, for you
I do, I do

I never thought in my wildest dreams that I'd have you I never thought in my wildest dreams that I'd have you I never thought in my wildest dreams that I'd have you But I do $^{\circ}$

Here and now, forever
I promise you, cause you're the one
Here and now, together
For you, for you
I do, I do
