

Can't Do Without You

Diana King

Hi, how you doing?
Long time no see
Still remember your face
'Cause I see it in my dreams

Boy you're looking good
But then you always did
Who's the chick with the pretty face
Is she the one you're with?

Don't tell me you want us to be friends
That's something I just can't do
Boyfriend I'm sorry, forgive me
I got plans for you

I don't like your new gal friend
'Cause she's standing in the place
Where I should have been
I don't like your new gal friend
She's messing with my head
She's sleeping in my bed

See I had it all worked out
To get you back as my man
To have her in my way
Wasn't part of the plan

What is this I see
A new shinning diamond ring
Are you sure she has no secrets
'Cause I've heard so many things

Was it so easy to leave me
And find somebody new
You'll be sorry, without me
She's no good for you

I don't like your new gal friend
'Cause she's standing in the place
Where I should have been
I don't like your new gal friend
She's messing with my head
She's sleeping in my bed

I don't like your new gal friend
And I don't think that you should
Ever see her again
I don't like your new gal friend
She's messing up my plan
She's fucking with my man
