

Soul Stripper

Diary of Dreams

Never go, never let me go
Soul stripper!

A walk, no destination
Backwards, never forwards
You sound like you
But look like someone else
What is this world you come from?
Who taught you how to be that way?
Are you not scared to hurt yourself?
Go count the stars with someone else!

Never go, never let me go
Soul stripper!

A schizophrenic attitude
Determined admiration
Explicit language overkill
With mimic deformation
In constant search for your next thrill
Sacrilegious beast of mind
Aggravated brain alert
Affinity invasion

Never go, never let me go
Soul stripper!

Apocalyptic overdose
If you can't sense the danger
One way ticket passenger
Your lies will bring you nowhere

Never go, never let me go
Soul stripper!

Drastic methods to assure
That you have true intentions
Nobody dares to ask you why
They keep you calm on drugs

Never go, never let me go
Soul stripper!
