

Come a Little Closer

Dierks Bentley

D **G** **D**
Come a little closer baby, I feel like laying you down
D **G** **D**
On a bed of sweet surrender, where we can work it all out
Bm

G **Bm** **G**
There ain't nothing that love can't fix, girl it's right here at
our fingertips

D **G** **D**
So come a little closer baby, I feel like laying you down

D **G** **D**
Come a little closer baby, I feel like letting go
D **G** **D**
Of everything that stands between us, and the love we used to know

Bm **G** **Bm** **G**
I wanna touch you like a cleansing rain and let it wash all the
hurt away

D **G** **D**
So come a little closer baby, I feel like letting go

Bm

G **D**
If there's still a chance, then take my hand, and we'll steal a
way

Bm **G** **E**
Up into the night, to make things right, the suns gonna rise on
a better day

D **G** **D**
Come a little closer baby, I feel like stripping it down
D **G** **D**
Back to the basics of you and me, and what makes the world go
round

Bm **G** **Bm** **G**
Every inch of you against my skin, I wanna be stronger than we've
ever been

D **G** **D**
So come a little closer, I feel like stripping it down

D **G** **D**
Come a little closer baby, just a little bit closer

D **G** **D**
Come a little closer baby, I feel like laying you down
