

# My Religion

Dierks Bentley

I fell in love on the L train  
Headed somewhere north of where you are  
Thought I knew where I was going  
Now I know I'm going where you are

Ain't gonna lie I've been drinking  
That Colorado's got me stoned  
And every time I close my eyes the angels are singing  
Loving you ain't my decision  
Loving you is my religion

I wanna hear what's been hurting  
I carve that on a bench in Central Park  
And when I showed up there the next day  
You'd written your initials in a heart

Ain't gonna lie I've been drinking  
That Colorado's got me stoned  
And every time I close my eyes the angels are singing  
Loving you ain't my decision  
Loving you is my religion

I'm in love out in LA  
Paris, Tokyo, coast to coast  
And it's you that keeps me going  
Love from you will always mean the most

Ain't gonna lie I've been drinking  
That Colorado's got me stoned  
And every time I close my eyes the angels are singing  
Loving you ain't my decision  
Loving you is my religion  
End D
