

Summer On Fire

Dierks Bentley

Motor runnin', baby shotgunnin'
Sipping on something, wearing next to nothing
Take a ride to the big brush, find a spot for your pickup,
When the moonlight's lit up, take a lid off the good stuff

We're cuttin' loose now
We go the fuse out

We're gonna set the summer on fire
Tonight we're gonna let it burn brighter
Spark up a country song and those lighters
We're gonna set the summer on fire

Jeans and t-shirts, bangin' speakers
Muddy 4-wheelers and kisses sweeter
And homemade wine from a Muscadine vine
Get your tan lines in line for a good time

It's heatin' up now
So let's burn it down

We're gonna set the summer on fire
Tonight we're gonna let it burn brighter
Spark up a country song and those lighters
We're gonna set the summer on fire

It's heatin' up now
So let's burn it down

We're gonna set the summer on fire
Tonight we're gonna let it burn brighter
Spark up a country song and those lighters
We're gonna set the summer on fire

We're gonna set the summer on fire
Tonight we're gonna let it burn brighter
Takin' a shot and takin' it higher
We're gonna set the summer on fire, fire, fire yea yeah
Takin' a shot and takin' it higher
Summer on fire, fire, fire
