

## Getta Kick

Diesel

Tail wind blowin'  
Days ain't slowin'  
Time is all that I see  
Everyone chasing self preservation  
But that don't mean that much to me

Cause I getta kick out of feeling  
I'm the only man alive  
Who gets a kick out of being..

Pipe dreams burning  
People turning  
Mama gotta get home tonight  
Space invaders playing the creator  
They're trying to zap you in the eye  
Whatever gets you high

But I getta kick out of feeling  
I'm the only man alive  
Who gets a kick out of being by your side  
When this whole world gets to much for me  
There's a place left in my mind  
Where I getta kick out of being

Wake up today  
Bring home the pay  
Nothing comes for free  
Live to survive  
Won't get you by

But I getta kick out of feeling  
I'm the only man alive  
Who gets a kick out of being by your side  
When this whole world gets to much for me  
There's a place left in my mind  
Where I getta kick out of being

Yeah I getta kick out of feeling  
I'm the only man alive  
Who gets a kick out of being by your side  
When this whole world gets to much for me  
There's a place left in my mind  
Where I getta kick out of being
