Tonight's the night I'm gonna Make my true confession Got my courage up There's nothing that can keep me down now My words get tangled up in good intentions But I know what my heart wants to say, hey I've got to let you know For worse or for better There's a hundred ways that I could show you But it wouldn't matter It's time to tell you And I'll try to keep it simple I know what you want to hear Why do I forget every time you get near? Right on the tip of my tongue Right on the tip of my tongue Right on the tip of my tongue On the tip of my tongue Look in my eyes and tell me what do you see There's a message that I'm sending And I hope you receive Words get tangled up in good intentions You know what my heart wants to say Know what my heart's trying to say Right on the tip of my tongue Right on the tip of my tongue Right on the tip of my tongue On the tip of my tongue Three little words that I want to say You'll never know if you walk away I know what you want to hear Why do I forget every time you get near Right on the tip of my tongue Right on the tip of my tongue Right on the tip of my tongue Three little words that I want to say You'll never know if you walk away Right on the tip of my tongue Right on the tip of my tongue
