

# Bleed For Me

Digital Daggers

You won't hear the footsteps  
But I'll be following  
You won't feel the shadows  
But they'll be closing in  
You won't see me coming  
But I'll rip you at the seams  
You won't touch the silence  
But you can hear the screams

You won't taste the poison  
Hidden in my kiss  
You won't face the darkness  
So I'll just walk right in  
You can't outrun the wicked  
I'll keep you standing still  
You refuse to be the hunted  
But I'm out for the kill

So I creep  
To watch you bleed for me  
So I creep  
To watch you bleed for me

Bleed for me  
Won't you bleed for me  
On your knees for me  
Won't you bleed for me  
Bleed for me  
Won't you bleed for me  
On your knees for me  
Won't you bleed for me

So I creep  
To watch you bleed for me  
So I creep  
To watch you bleed for me

Bleed for me  
Won't you bleed for me  
On your knees for me  
Won't you bleed for me

So I creep  
To watch you bleed for me
