

# While The City Sleeps

Digital Summer

I wanna hear it  
Just wanna hear  
Just wanna hear you say

We've thought about it for some time  
To wait until the moment is just right  
To disappear this way  
She says  
I'm not ready to believe in this  
I'm not ready to give it all away  
But I'm willing to take the risk  
'Cause I know it has to be like this

While the city sleeps  
We'll make our way thru the night  
Taking nothing to remind us  
While the city sleeps  
We'll leave this world behind  
Hoping they never find us  
We'll disappear in the night

As we drive I'm watchin you  
I see your tongue dance around your lips  
It's no secret I'm nervous too but I know  
It's what we have to do  
I'm more than ready to bleed for this  
I'm more than ready to throw it all away  
'Cause my heart's programmed to risk  
Whatever love it takes  
Please just take us away

While the city sleeps  
We'll make our way thru the night  
Taking nothing to remind us  
While the city sleeps  
We'll leave this world behind  
Hoping they never find us

No one has to know  
We'll just get up and go  
Only guided by the night  
The stars and the road  
With the destination nowhere  
We don't care  
As long as it's  
Anywhere but here

While the city sleeps  
We'll make our way thru the night  
Taking nothing to remind us  
While the city sleeps  
We'll leave this world behind  
Hoping they never find us

While the city sleeps  
We'll make our way thru the night  
Never let them find us

While the city sleeps
