

X For Tha Ear

Digital Underground

Say, "yeah!"
And throw your hands in the air
Say, "yeah!"
And throw your hands in the air
Say, "yeah!"
And throw your hands in the air
Say, "yeah!"
And throw your hands in the air

Come get a bite from the ill new pill
Original good time drug for your ear
Swallow and follow the reel
Things is lovey-dovey over here
Blessed with the flex and skills
Chill with the frownville
Leave the funny vibe over there
Let the X fulfill
It might be tricky
But could you kick it over here?

Cause over here we got tha X for tha ear
Over here
We got tha X for tha ear
Could you kick it over here? (Get next to me)
Over here we got tha X for tha ear (We got that ecstasy)
(Over here)
Over here
(We got tha X for tha ear)
We got tha X for tha ear

Peace but not on the streets it seems
We did to the world in a snooze
But if I get up get up and never let up
And watch for the set-up
Yo, I can't lose
No slacks so I lean in my dream
Times is hard, black bro
I understand what you fear
But still recognize your team
Keep a gat for your back
But don't point it over here
To keep from crackin' up like a duck
I get something smooth to soothe my mind
And that's when the music pulls me in
And says

Could you kick it over here?
Cause over here we got tha X for tha ear (We got tha X for your ear)
Over here
We got tha X for tha ear (Ear)
Over here (Get next to me)
We got tha X for tha ear (We got that ectasy)
Over here (We got tha X for tha ear)
We got tha X for tha ear
(The ecstasy)
(The ecstasy)
(The ecstasy)

(The ecstasy)
It's getting better, better
(Things are getting better over here)
It's getting better, better, better
(We got tha X for tha ear)
It's getting better, better
(Things are getting better over here)
It's getting better, better, better
(We got tha X for tha ear)
Better
