

## Expanding Man

## Dilated Peoples

As I expand.... you

Ay yo amplify, magnify, broaden my reach  
Expand, exercise, ex-get increased  
The 'e' and the 'x' are connected like excellence  
The 'p' is for peoples that Dilated represents  
(Evidence: A-N for all night) PM to AM  
and D's for droppin rhymes with no delayin'  
Even numb from Novacane you feel the slow pain  
See flames but fuel the fire like propane  
(Evidence: now hold that) keep that lock and less beats  
War's not the word to play its like peace  
I'm a cyborg connected with a mic in my hand

As I expand... you know I am..am..  
A... triple optometrist mental megalopolis...  
A... student on these L.A. blocks...  
Raakaa Iriscience rapid fire how I transmit

Ay yo me and Omega, Devious Doze used to pose  
Hypothetical flows gettin' thrown with no foes  
A decade ago- introduced to Will Copper  
And out the other side of my fear- a field trooper  
Son of a preacher- in school a student teacher  
But I'd rather read or hit the theater for a double feature  
Bored night creature well I used to trade books  
When science appeared fellow scientists trade looks (y'all see that?)  
A brick by brick builder I learned to mix mortar  
Gettin' smarter and smarter from Homocide and Law and Order  
Street poet, mild man or reporter  
Til I flip like Kool Kieth drippin' droppin' like water

[Babu scratches Dilated lines]  
Raakaa Iriscience...create to devastate  
Why wait... put your gloves out  
Expand and dilate...  
As I expand you know who I am...Its the expanding man...  
A... triple optometrist mental megalopolis...  
A... student on these L.A. blocks...  
Iriscience...you know who I am...am

[Iriscience]  
Now I haven't forgotten all the drugs that Bush brought in  
Its funny how its maybe his stash your son got in  
Man, Uncle Sam facilitated the plan  
Got weed dealt in miligrams and grams and kilograms  
(Evidence: Yo, word to our lye) they can heal a killa man  
They might have a plant they can if they got a pill to can  
Body upon young body into camps  
but camps turn to pen when boys to turn to men  
War bein' used to both profit and clense  
War spoke- why it camouflage the feds  
I'm a freedom fighter, reader, writer, rapper, and fan

[Babu scratching]  
As I expand you know who I am...  
You know who he is

As I expand you know who I am...  
The expanding man...  
As I expand you know who I am...am  
As I expand you know who I am...  
Its the expanding man
