

## Good To Me

Dina Carroll

Mmm... Good to me...  
I've never known a love like this  
I just can hardly believe it  
And I love giving you my everything  
You give me more than I needed  
And thinking of the good times  
Precious times that were yours and mine  
That's why I can't wait to see your face  
Baby, when I tell you goodbye  
'Cos it's a damn shame  
You know you should have been good to me  
You could have had everything  
You know you should have been good to me  
(You should have been good to me  
Good to me)  
The first time that I saw you, boy  
You looked so good to me  
You were my fantasy  
Now when I remember those days  
I see your wandering eyes  
And the same old lies  
Thought our love was heaven sent  
But even an angel could not prevent  
What these tears represent  
Is I'm so tired of paying for your rent  
'Cos it's a damn shame  
You know you should have been good to me  
You could have had everything  
You know you should have been good to me  
(You should have been good to me  
Good to me)  
Should have been good to me  
Should have been sweet to me now...
