I Had A Dream

Dreaming.....

Only you, only me In a room with the crowd Only they could not see You undressed me With those eyes They revealed It's a matter of time

Here in my mind I could feel you kiss me I closed my eyes And you appeared

I had a dream That we had made it in love Oh what can I need That I can't get enough I had a dream That you were giving to me The kind of love that I need

I had a dream That we had made it in love Oh what can I need That I can't get enough I had a dream That you were giving to me The kind of love that I need

I see you, you see me We believe in a world Only lovers can see How you hold me With your charms So surreal When I'm there in your arms

You on my mind Got to feel you near me tonight In my mind you reappear

I had a dream That we had made it in love Oh what can I need That I can't get enough I had a dream That you were giving to me The kind of love that I need

Dreaming Dreaming now you're loving me

Here in my mind I could feel you kiss me And I, I closed my eyes **Dina Carroll**

And you appeared

I had a dream That we had made it in love Oh what can I need That I can't get enough I had a dream That you were giving to me The kind of love that I need
