

You Were Meant For Me

Dina Carroll

You were meant for me
No one else could come between
This love I know
'Cos I'll never let you go
You and me, it seems
Never have a problem
We can't overcome
'Cos you'll always be the one

Never thought I'd be so happy
Loving you has made me feel so fine
I can see my friends turn green with envy
Every time I tell them I'm so glad you're mine

You were meant for me
No one else could come between
This love I know
'Cos I'll never let you go
You and me, it seems
Never have a problem
We can't overcome
'Cos you'll always be the one

Never did one thing to hurt me
You always understood my way
If I could, I'd stay right here beside you
With your hand in mine, making love all day

You were meant for me
No one else could come between
This love I know
'Cos I'll never let you go
You were meant for me...
