

## Little Fury Things

Dinosaur Jr.

What is it?  
Who is it?  
Where is it?

A rabbit falls away from me, I guess I'll crawl  
A rabbit always smashes me, again I'll crawl  
Tried to think what's over me, it makes me crawl  
Then she runs away from me, faster than I crawl  
I stopped to call, tried to feel it all  
Stuck my hand and pulled real hard  
Got stretch in miles, not in yards  
Then I read, about all those who believe all of your lies  
Sunlight brings the rage right in your eyes

A rabbit falls away from me, I guess I'll crawl  
A rabbit always smashes me, again I'll crawl  
Tried to think what's over me, it makes me crawl  
Then she runs away from me, faster than I crawl

A rabbit falls away from me, I guess I'll crawl  
A rabbit always smashes me, again I'll crawl  
Tried to think what's over me, it makes me crawl  
Then she runs away from me, faster than I crawl
