

# Lord of the Last Day

Dio

I love the night  
So many shadows  
Unholy light  
Putting out the spark  
Leave 'em in the dark - forever  
Ooh

I can wait for you  
Your end is my life  
All lies are true  
Secrets of the heart  
And you can take them all - To heaven

I don't feel pain or sorrow  
The child's a man tomorrow  
Crossing the line - Then he's mine

Don't care which god you follow  
Whose promises you swallow  
Time and again  
We must meet at the end  
Aaah

It's all right  
When the music is over  
Come on and dance  
For the lord of the last day

I love the night  
So many shadows  
Unholy light  
Secrets of the heart  
Leave 'em in the dark  
Forever
