

Now

Dion

Now you taste the sunlight
Now you feel the colors
And you know it my friend
That you don't have to hide anymore

Now you hear the silence
Now you see its beauty
And you know it my friend
That you don't have to hide anymore

Now it's real
No one knows better than I
How you feel

Now you hear the music
Now you have the moment
And you know it my friend
That you don't have to hide anymore

Now it's real
No one knows better than I
How you feel

Now you hear the music
Now you have the moment
And you know it my friend
That you don't have to hide
No, you don't have to hide
No, you don't have to hide anymore
