

Bad Intentions

Dionne Bromfield

Boy, I get wild, I get wild
I don't know about you
Might need a warning sign
With all the things that we do

Just say the words, I'll come runnin'
You'll come runnin' too
'Cause I'm in love with your body
I'm not in love with you

No date nights, just late nights for me and you
No feelings, just leave them outside this room
No hugging, just (ah) is all we do
'Cause what we both we need is temporary

I got bad intention and you've got 'em too
We know what we're getting when it's me and you
You got me thinking things that I should never do
All these bad intentions need to go to use

We get wild, we get wild
Now I know about you
But you make me smile
When you rendezvous

Just say the words, I'll come runnin'
You'll come runnin' too
'Cause you're in love with my body
You're not in love with me too

No date nights, just late nights for me and you
No feelings, just leave them outside this room
No hugging, just (ah) is all we do
'Cause what we both we need is temporary

I got bad intention and you've got 'em too
We know what we're getting when it's me and you
You got me thinking things that I should never do

All these bad intentions need to go to use

No, it ain't right but it ain't wrong when you're all over me
All I want is your love, body to touch, take control of me
And no, it ain't right but it ain't wrong when you're all over me
Just give me your bad intentions, 'cause I got bad intentions

If we got the bad intentions
Let's put them right into action
If we got the bad intentions
Let's put 'em right into action
Bad intentions
Let's put them right into action
If we got the bad intentions
Let's put them right into action

I got bad intention and you've got 'em too
We know what we're getting when it's me and you

You got me thinking things that I should never do
All these bad intentions need to go to use

No, it ain't right but it ain't wrong when you're all over me
All I want is your love, body to touch, take control of me
And no, it ain't right but it ain't wrong when you're all over me
Just give me your bad intentions, 'cause I got bad intentions

But it ain't wrong
Gimme your love
All night long
No it ain't right, baby
But it ain't wrong
Gimme that bad intention
'Cause I got bad intentions
